

Maintenance Record

Periodic Maintenance

The periodic maintenance must be done to keep your motorcycle always in optimum operating conditions, providing a safe and problem-free riding.

The two first inspections are free of charge if performed by HONDA dealers or authorized service centers, but the lubricants, cleaning material and normal maintenance parts are on the owner's expense. The free inspections (1000 km and 3000 km) shall be performed according to the mileage, to a tolerance of 10% (900 km to 1100 km and 2700 km to 3300 km), once not exceeding the 6 and 12-month term, respectively after the date of the motorcycle sale.
