## Example

- If you set the subtraction trip mode and do not travel, you will have to re-enter the trip distance.

- If you set the subtraction trip mode and do not complete the set distance, the subtraction trip mode will reset to the initial setting.

$$100.0 \longrightarrow 100.0$$

Change to the set distance mode.

$$100.0 \longleftarrow 75.0$$

Reset to the initial setting.
