

## Tyre Replacement

The tyres that came on your CRF were designed to provide a good combination of handling, braking, durability, and comfort across a broad range of riding conditions.

### **⚠ WARNING**

Installing improper tyres on your motorcycle can affect handling and stability. This can cause a crash in which you can be seriously hurt or killed.

Always use the size and type of tyres recommended in this owner's manual.

### CRF150R:

Front	ED, CM	70/100-17 40M	
		BRIDGESTONE	M23
U		70/100-17 40M	
		IRC	M6B
Rear	ED, CM	90/100-14 49M	
		BRIDGESTONE	M22
U		90/100-14 49M	
		IRC	M5C
Type	bias-ply, tube		

### CRF150RB:

Front	70/100-19 42M	
	BRIDGESTONE	M61
Rear	90/100-16 52M	
	BRIDGESTONE	M58
Type	bias-ply, tube	

- Use a replacement tyre equivalent to the original.
- Replace the tube any time you replace a tyre. The old tube will probably be stretched and, if installed in a new tyre, could fail.
