

Steering Damper Adjustment Guidelines

Follow the procedures described below to accurately adjust your CRF, using the methods described on this page.

Symptoms and Adjustment

- Always begin with the standard settings.
- Turn the steering damper adjuster in one-click increments at a time. Adjusting two or more clicks at a time may cause you to pass over the best adjustment. Test ride after each adjustment.

Symptom	Action
Steering is wobbling on large bumps	Adjust the steering damper adjuster to stiffer setting.
Steering is wobbling at sand track	Adjust the steering damper adjuster to stiffer setting.
Steering is heavy when cornering	Adjust the steering damper adjuster to softer setting.
