

(Ref.No.) Description	Function
(16) Immobilizer system (HISS) indicator (red)	<p>This indicator lights for a few seconds when the ignition switch is turned ON and the engine stop switch is at  (RUN). It will then go off if the properly-coded key has been inserted. If an improperly-coded key has been inserted, the indicator will remain on and the engine will not start (page 49).</p> <p>This indicator can continue to flash every 2 seconds for 24 hours with the ignition switch OFF. After this period, the indicator automatically switches off (page 50).</p>
