

PRE-RIDE INSPECTION

Prior to starting your motorcycle, perform a general inspection as a matter of habit to make sure that the motorcycle is in good, safe riding condition.

Check the following items and if adjustment or servicing is necessary, refer to the appropriate section in the manual.

Engine oil level – Check the level and add if necessary. (See page 78)

Fuel level – Fill the fuel tank when necessary. (See page 46)

Brakes – Inspect the operation of the front and rear brakes. Adjust the free play if it is excessive. (See pages 118–124)
