

Riding Through Water

▲ WARNING

- * *Do not ford any stream with fast flowing water. The tires may float, making it difficult to maintain control.*
- * *Do not ride the BIG RED through water beyond its limit; directional control may be impaired.*

The Honda BIG RED can ford water to a depth of approximately 11 inches, although the rider must be careful to avoid getting the spark plug or air cleaner wet.

When crossing streams, choose a course where both banks have gradual inclines. Proceed at a slow, steady speed, and take care to avoid submerged obstacles and slippery rocks.
