

Load Limits & Guidelines

Loading Guidelines

As discussed on page 34, we recommend that you do not carry any cargo on this ATV. However, if you decide to carry cargo, ride at reduced speeds and follow these common-sense guidelines.

Carrying cargo or pulling a trailer will affect how your ATV handles and greatly reduce its ability in accelerating, braking and making turns and other maneuvers.

Be sure to observe the weight limit and follow these guidelines:

- Check that the tires are properly inflated.
- Never ride with a passenger. The ATV is not designed to carry a passenger.
- Do not tow another vehicle.
- Make sure all cargo is secured before riding.
- Never exceed the maximum weight limit.
- Allow extra room for starting, stopping and turning whenever you carry cargo or pull a trailer.
- Avoid riding on steep slopes when carrying cargo or pulling a trailer.
- Never cross a slope when towing a trailer.
