

- * A prime objective in the instruction process is developing the young rider's self-confidence. This self-confidence comes with a total familiarization with the FOUR TRAX's controls and their functions, plus lots of PRACTICE.
- * Always obey local off-road riding laws and regulations.
- * Obtain permission to ride on private property. Avoid posted areas and obey "no trespassing" signs.
- * When the basic riding techniques have been mastered by the young rider, remember these next few words of caution: The young rider should always ride in the company of an adult on another FOUR TRAX so they can assist each other in the event of trouble.
- * Familiarity with the FOUR TRAX is critically important should a problem occur far from help.
- * Caution the young rider never to ride beyond his or her ability and experience or faster than conditions warrant.
- * If you are not familiar with the terrain, the adult should lead the way and ride cautiously. Hidden rocks, holes or ravines could spell trouble.
- * Your ability to operate the FOUR TRAX safely is largely dependent upon your proper judgement.
- * Do not use the flag pole bracket as a trailer hitch.
- * Maintain a safe distance between your FOUR TRAX and other off-road vehicles.
- * Do not ride on or near railroad tracks as it is difficult to hear an approaching train.
