

## **PRE-RIDING INSPECTION**

Prior to starting your motorcycle, perform a general inspection as a matter of habit to make sure that the motorcycle is in good, safe riding condition.

Check the following items and if adjustment or servicing is necessary, refer to the appropriate section in the manual.

Engine oil level – Check the level and add if necessary.

Fuel level – Fill fuel tank when necessary.

Radiator reserve tank coolant level – Check the level and add if necessary.

Brakes – Check the brake lines for leaks, check brake fluid level.

Tires – Check the air pressure and the tires for wear or damage.

Battery electrolyte – Check the level and add if necessary.

Throttle operation – Check throttle operation, cable routing and free play.

Correct or replace if necessary.

Lighting – See if all lights operate properly.
