

## Helmet Holder

The helmet holder may only be used when the motorcycle is parked. Using the holder will interfere with the operation and may damage the motorcycle. Also it will damage the helmet, reducing its protection.

### How to use the helmet holder

1. Remove the seat (ref. P. 23).
2. Pass the helmet holder wire through the ring on the helmet strap and hook to the helmet holder.
3. Set the seat.

Keep the helmet holder wire in storage when the holder is not in use.

### Advice

Do not leave the key inside. It will be automatically locked inside by installing the seat.
