If the Transmission Is Not **Functioning Properly**

If the PGM-FI malfunction indicator lamp (MIL) lights or blinks while driving, perform the following:

- 1. Stop the Honda MUV.
- 2. Turn the ignition switch to the OFF (()) position.
- 3. After the engine stops, turn the ignition switch to the ON(1) position.
- 4. Check the PGM-FI malfunction indicator lamp (MIL).

When the PGM-FI malfunction indicator lamp (MIL) is blinking: Restart the engine; drive the vehicle to a location where it can be loaded and transported to your dealer.

When the PGM-FI malfunction indicator lamp (MIL) returns to normal: You may drive the vehicle as usual after restarting the engine. However, we urge you to have your Honda MUV inspected by your dealer.
