

Appearance Care

Cleaning Matte Painted Surfaces

Refer to *Safety Precautions* on page 119.

Use a soft cloth or sponge, plenty of water, and a mild detergent to clean the matte paint. Dry with a soft clean cloth.

Do not use polishing compounds or wax containing polishing compounds. These can damage or discolor the matte painted surface.

Aluminum Wheel Maintenance TRX500FA7 (Aluminum wheel model)

Refer to *Safety Precautions* on page 119.

Aluminum may corrode from contact with dirt, mud, or road salt. Clean the wheels after riding through any of these substances. Use a wet sponge and mild detergent. Avoid stiff brushes, steel wool, or cleaners containing abrasives or chemical compounds.

After washing, rinse with plenty of water and dry with a clean cloth. Then apply a mild, commercially available spray cleaner/polish or wax.

For stained or dull-looking wheels, use a quality chrome/aluminum polish to restore the finish.
