## Instruments *(Continued)*
To set the clock:

❶ Turn the ignition switch to the ON position.
❷ With odometer displayed, press and hold the mode switch until the clock digits start flashing.

$$10{:}25 \longrightarrow 10{:}25$$

❸ Press the mode switch until the desired time is displayed.
▶ The time is advanced by one minute, each time the switch is pressed.
▶ The time is advanced by ten minutes, when the switch is pressed and held.

$$10{:}25 \longrightarrow 5{:}25$$

❹ Wait for 5 seconds and press the mode switch. The clock is set.
▶ The time can also be set by turning the ignition switch to the OFF position.
